DISCOVER YOUR DEGREE

During the three or four years spent pursuing a bachelor's degree at Providence, you will not only experience life together in community among peers, but also alongside professors who excel in their academic disciplines and whose teaching is informed by their faith. Small class sizes mean that you can more meaningfully connect with fellow students and your instructors.

aim higher

Find a program that fits you.

Take our quiz >>

BACHELOR OF ARTS (BA)

With a BA, you gain insight in a variety of areas within the Humanities and Social Sciences, and you have the flexibility to choose from a wide selection of courses. You can choose a major (or double major) in your area(s) of interest such as Aviation, Interdisciplinary Studies (including Pre-Education), Psychology, and more.

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

The BBA is designed to give you broad business knowledge while also developing your practical, managerial, and communication skills. Students will develop competencies in problem solving, goal setting, team management, and leadership.

BACHELOR OF SCIENCE (BSc)

The BSc has three options of majors including General Biology, Biology-Psychology, and Health Science. Each is a foundational program grounded in scientific methods and practical skills acquired through classroom learning and labs. You can take prerequisites for further study in areas such as veterinary medicine, kinesiology, nursing, and pharmacy.

DIPLOMAS & CERTIFICATES

We offer more than traditional degree programs. We also have diplomas and certificates in programs areas such as Aviation, Biblical Studies, Business and Criminal Justice.

ARE YOU READY?

Explore our programs and begin to see what a degree at Providence University College can do for you.

LET'S GO >>

PROGRAM DESCRIPTION

Get the well-rounded education that major airlines are seeking through courses at Providence and flight training at Harv's Air. Earn a bachelor's degree and complete the necessary certification to become a private or commercial pilot.

DEGREE OPTIONS

BA 4 Year Major
BA 3 Year Major
BSc 4 Year Major
BSc 3 Year Major
2 Year Diploma
Minor

FEATURED COURSES

MULTI-ENGINE INSTRUMENT FLYING: Learn the theory and practice flying a multi-engine aircraft. Gain knowledge of aerodynamics, speeds, aircraft systems, performance, and emergency procedures. Earn a multi-engine endorsement on your license upon completion.

AEROBATICS: Learn how to fly an aerobatic aircraft and expand your skills significantly as a pilot. Gain skills in maneuvers like Chandelles, Lazy Eights and Barrel Rolls, and then try your hand at the more advanced tricks.

ADVANCED NAVIGATION FLIGHT LAB: Fly across the United States, all the way to California, and learn both Canadian and American flight rules and regulations.

AFTER GRADUATION

CAREERS

- Airline Pilot
- Aviation Consultant
- Flight Instructor
- MedEvac Pilot
- Missionary Pilot
- Safety Professional

PROFESSIONAL & GRADUATE PROGRAMS

- Aerospace Sciences (PhD)
- Business Administration
- Master of Science in Aviation

DID YOU KNOW?

In addition to Private and Commercial pilot licenses, Aviation students also have access to earning an Airline Transport Pilot License (ATPL), which is the highest license one can earn as a civil airplane pilot. This allows one to be the captain or pilot in command of a multi-crew airplane.

BIBLICAL STUDIES

PROGRAM DESCRIPTION

In this multidisciplinary program, explore the ancient languages, history, social setting, and literary genres of the biblical text, as well as how it is interpreted in contexts such as the Church, the academy, and in popular culture.

DEGREE OPTIONS

BA 4 Year Major
BA 3 Year Major
Certificate
Minor

FEATURED COURSES

THE PENTATEUCH: Study the history, theology and literacy of the books Genesis through Deuteronomy. Discover the importance of these books in art and culture and the way in which the Pentateuch continues to shape the Church and the modern world.

EARLY CHRISTIANITY I: A study of the earthly life and ministry of Jesus in the light of the political, social, religious, and literary background of the New Testament. The course gives attention to key themes (e.g. Lordship and Messianic role) to which the contents of the four Gospels attest.

AFTER GRADUATION

CAREERS
- Chaplain
- Church Administrator
- Pastor
- Professor
- Teacher

PROFESSIONAL & GRADUATE PROGRAMS
- Master of Divinity
- Religious Studies
- Theology

DID YOU KNOW?

In 2026, Assistant Professor of Biblical & Theological Studies, Dr. Daniel Rempel, published the book *A Disruptive Witness: Intellectual Disability and the Christian Life* (Baylor University Press).

"I feel like I've definitely been able to see the value of perspective, the value of seeing opposing views, listening seriously, trying to listen past what seems to be surface differences, and trying to look at the heart of the issue."

BEN SCHATZLEIN

BIOLOGY-PSYCHOLOGY

PROGRAM DESCRIPTION

Interested in biology and its intersection with social science? Pursue an interdisciplinary degree that combines topics such cell biology and pharmacology with the fields of cognitive, social, and developmental psychology.

DEGREE OPTIONS

BSc 4 Year Major

FEATURED COURSES

CELL BIOLOGY: This course explores the dynamics of the plasma membrane, establishment of the cytoskeleton, components of the extracellular matrix, mechanisms of cell death, and biology of the intracellular organelles.

BRAIN AND BEHAVIOUR: Students are introduced to behavioural neuroscience, and they will learn about foundational concepts such as neuronal structure, communication, and development. Topics may include learning, addiction, emotion, sleep, memory, and mental disorders.

AFTER GRADUATION

CAREERS
- Behavioural Specialist
- Community Services Worker
- Laboratory Technician
- Mental Health Technician
- Research Assistant

PROFESSIONAL & GRADUATE PROGRAMS
- Clinical Psychology
- Counselling Psychology
- Genetic Counselling
- Physical Therapy

DID YOU KNOW?

People with biology-psychology careers may seek to answer questions such as how genes can impact behaviour or how pharmaceuticals influence mental health.

BUSINESS

PROGRAM DESCRIPTION

Make a difference in the business world or part of a not-for-profit organization through integrating best practices and faith-based principles. Learn to lead effectively in a variety of administrative and management roles.

DEGREE OPTIONS

BBA 4 Year Major ***
BA 4 Year Major ***
BA 4 Year Honours Major
BA 3 Year Major ***
AA 2 Year Degree
Minor

*** Bachelor of Business Administration (BBA) and Bachelor of Arts (BA) programs that have co-op opportunities.

FEATURED COURSES

ENTREPRENEURSHIP: What is the process of entrepreneurship – what is its role within organizations or within the economy? Review case studies, interact with entrepreneurs and create your own new-venture business plan.

MANAGING DIGITAL ENTERPRISE: A critical examination of how information systems and digital networks are currently used or could be developed to enhance the management process and promote business outcomes. Topics include management decision making related to investment in digital technologies and the impact of digital networks, information systems, and communications technology on business activities and strategies.

AFTER GRADUATION

CAREERS
- Accountant
- Financial Consultant
- Policy Specialist
- Program Coordinator
- Sales Manager
- Small Business Owner

PROFESSIONAL & GRADUATE PROGRAMS
- Agriculture
- Business Administration
- Certified Public Accountant
- Foreign Policy
- Government Relations

BULLER SCHOOL OF BUSINESS

DID YOU KNOW?

The Buller School of Business was founded in 2016 by Herb and Erna Buller, Manitoba business leaders, philanthropists and long time supporters of Providence.

"One of the most encouraging aspects of my Providence experience has been knowing all of my professors and all of my professors knowing me. If I stop by their offices, they seem to almost always be available to talk."

CODY ERICKSON

CHURCH MINISTRIES

PROGRAM DESCRIPTION

Looking to work in a church or parachurch ministry setting? Gain the skills required to accurately understand, effectively communicate with, and relate sensitively to the needs of local congregations and faith communities.

DEGREE OPTIONS

BA 4 Year Major
BA 3 Year Major
Minor

FEATURED COURSES

PASTORAL THEOLOGY: Discover the nature and function of pastoral ministry through theology and the Bible and then learn how these principles are carried out in the church and parachurch ministries.

RETHINKING THE CHURCH: This course examines issues facing the contemporary church and its ongoing efforts to be relevant in the modern world.

AFTER GRADUATION

CAREERS
- Church Administrator
- Pastor
- Worship Leader

PROFESSIONAL & GRADUATE PROGRAMS
- Biblical Studies
- Counselling
- Theology

DID YOU KNOW?

We have a long history of equipping students for ministry. In fact, Providence's original name when it was established in 1925 was the "Winnipeg Bible Training School."

"The professors at Providence are one of my favourite things about studying here. The classes are small enough that you get to know them so well, and they often end up impacting your life as a friend and person as well as an academic authority."

GINA TURNBULL

CRIMINAL JUSTICE

PROGRAM DESCRIPTION

Explore how the criminal justice system works and the social issues that shape it. Develop critical thinking, ethical decision-making, and practical skills to prepare for careers in policing, corrections, and public safety.

DEGREE OPTIONS

Minor – 15 credit hours
Diploma – 1.5 years

FEATURED COURSES

ETHICS IN CRIMINAL JUSTICE: Examine ethical principles and explore how they apply to real-world decisions involving authority, responsibility, and the use of power within the criminal justice system.

MENTAL HEALTH IN SERVICE WORK: Explore mental health, well-being, and practical strategies for managing stress and building resilience in demanding service-oriented professions.

AFTER GRADUATION

CAREERS

- Police and law enforcement
- Corrections and correctional services
- Youth and community services
- Public safety and security
- Border services and customs
- Bylaw enforcement
- Parks and conservation enforcement
- Community outreach and social justice organizations

DID YOU KNOW?

Criminal justice is about more than crime and punishment. At Prov, you'll learn to connect individual experiences with broader social issues, examining how power, privilege, inequality, and institutional structures shape the justice system.

"Real justice work addresses harm, not just offences, and it starts with understanding the social conditions behind both. I want students to see the people and the systems behind every case, and to leave ready to help communities heal."

DR. RYAN COULLING, ASST PROF OF SOCIOLOGY

GENERAL BIOLOGY

PROGRAM DESCRIPTION

Explore the wonders and complexities of living organisms through combining scientific theory, observation, and experiment. Gain experience in research methods and critical thinking skills in the classroom, lab, and field.

DEGREE OPTIONS

BSc 3 Year Major

FEATURED COURSES

INTRO TO BIOLOGY I: This course includes a lab and introduces the basics of life: the cell. Topics include cell biology, cell cycle, cell metabolism, genetics, and adaptation.

SCIENTIFIC WRITING & COMMUNICATIONS: This course examines the scientific method and introduces the style of scientific communication. Modes of communication include written scientific articles, slide presentations, and poster presentations. This course meets the professional studies requirement.

AFTER GRADUATION

CAREERS

- Agricultural Researcher
- Biologist
- Environmentalist
- Lab Technician

PROFESSIONAL & GRADUATE PROGRAMS

- Kinesiology
- Medical Laboratory Science
- Nursing
- Occupational Therapy
- Physical Therapy
- Respiratory Therapy
- Veterinary Medicine

DID YOU KNOW?

Graduates have gained entry into competitive programs such as nursing, veterinary medicine, occupational therapy, and more!

"Studying at Providence has taught me to seek truth with an open mind. I have been blessed to study science in a faith-based institute where my professors are open about their beliefs and help others seek truth."

CHARISMA GINTER

YOUR DEGREE IS JUST THE BEGINNING.

Build your foundation. Keep your options open. **aim higher**

Whether you dream of becoming a **teacher, nurse, physiotherapist, veterinarian, lawyer or counsellor**, your journey can begin at Prov. Our programs build your knowledge and skills while preparing you for further studies at other Canadian universities.

INTERESTED IN BECOMING...	PROV PROGRAM	FURTHER STUDY	PROV GRAD
• **Teacher** • **Principal** • **School Counsellor**	**INTERDISCIPLINARY STUDIES** 3-year Degree	Apply to an **after-degree Bachelor of Education (BEd)**, like Jamie who completed a 3-yr degree at Prov before applying to the University of Manitoba.	 **Jamie -** *Elementary School Teacher*
• **Nurse** • **Pharmacist** • **Dentist** • **Veterinarian**	**PREREQUISITE COURSES** 1-3 years	**Apply directly into nursing or veterinarian studies after completing necessary pre-reqs at Prov,** like Chloe who specialized and now works in a hospital as an OR nurse.	**Chloe -** *Operating Room Nurse*

Note: Admission requirements vary by institution and program. Program suggestions are starting points, not an exhaustive list; other Prov programs may also be suitable. Some careers require specific prerequisites, additional degrees, professional training or licensing. Confirm requirements with your intended university before selecting courses. A Prov degree does not guarantee admission to another program.

HEALTH SCIENCE

PROGRAM DESCRIPTION

Gain a foundation in health science through taking a wide variety of courses in health-related disciplines such as anatomy, biology, biochemistry, chemistry, genetics, microbiology, and social sciences like psychology and sociology.

DEGREE OPTIONS

BSc 4 Year Major

FEATURED COURSES

HUMAN ANATOMY, HISTOLOGY, AND PHYSIOLOGY: This course incorporates discussions about how cells, tissues, and organs work. Students learn the mechanisms of the bodily systems: nervous, endocrine, musculoskeletal, integumentary, cardiovascular, respiratory, digestive, renal, immune, and reproductive.

HUMAN DISEASE: This course introduces disease with an emphasis on the biology, pathophysiology, and etiology. Various topics include neurodegenerative diseases, cardiovascular diseases, metabolic diseases, immune diseases, and more.

AFTER GRADUATION

CAREERS

- Community Health Worker
- Health Clinic Assistant
- Laboratory Technician
- Research Assistant
- Research Project Cooridinator

PROFESSIONAL & GRADUATE PROGRAMS

- Genetic Counselling
- Medicine
- Nursing
- Optometry
- Pharmacy
- Physician Assistant
- Science
- Speech-Language Pathology

DID YOU KNOW?

Dr. Rebecca Dielschneider, Associate Professor of Health Science, is currently doing research related to cancers of the immune system and immune cells in cancer patients.

"I have been able to apply all the class lectures into actual tests and experiments and the small class allows for experiments that we check up on everyday outside of lab hours."

DANELLA ALVARO

HUMANITIES

PROGRAM DESCRIPTION

A study of various ideas and events that have shaped modern-day societies, as characterized by literature and history. Topics for consideration include human nature, moral values, and the struggle of existence.

DEGREE OPTIONS

BA 4 Year Major
BA 4 Year Honours Major
BA 3 Year Major
Minor (in one of the concentrations)

FEATURED COURSES

MAJOR ENGLISH WRITERS I: An introductory course to selected writers of the major genres of English poetry, prose, and drama from the Middle Ages to the 18th Century. Students will be introduced to the discipline of literary and textual criticism. They will develop stronger writing and research skills.

WESTERN CIVILIZATION II: This introductory survey to Western history will examine selected issues, peoples, and events from the Middle Ages to the 20th Century. Students will be introduced to several approaches historians have taken to understand the past.

AFTER GRADUATION

CAREERS

- Historian
- Researcher
- Teacher
- Writer

PROFESSIONAL & GRADUATE PROGRAMS

- Education
- English Literature
- History

DID YOU KNOW?

Dr. Luann Hiebert's debut collection of poetry was called *What Lies Behind* (Turnstone Press), which explores the beauty and challenge of life on the prairies.

"I had a really rough first semester. My professor encouraged me to keep going and met with me one-on-one. She really took the time to see that I was okay as a person...the heart that she has for her students outside of class is amazing."

KATELYN CORBIN

INDIGENOUS STUDIES

PROGRAM DESCRIPTION

The Indigenous Studies minor focuses on the concept of a mutual learning exchange between cultures within and beyond North America. It will help develop students' hearts and minds through an integration of content from the disciplines of biblical studies, emerging theologies, contemporary social theories, anthropology, missiology, church history, contextualized leadership, and spiritual formation.

DEGREE OPTIONS

Minor

FEATURED COURSES

INDIGENOUS AND CANADIAN HISTORY: Providing a historical survey of Indigenous history in Canada, course topics may include Indigenous interaction with explorers, traders and the shifting economies, the relationship of church and missionaries within the colonial structures, the rise and resistance of the Métis and other Indigenous peoples, treaty-making, legacies of residential schools and child welfare, contemporary cultural resurgence, and urban indigeneity.

INDIGENOUS APPROACHES TO THEOLOGY: This course will delve into unique Indigenous theological contributions to the meaning of Christian faith and life. A thematic approach will be used to explore topics such as the intersection of individual experience with the Creator, the nature of the spiritual and spirituality, the Gospel story, and redemption by contrasting Indigenous views with Western theological methods.

AFTER GRADUATION

CAREERS

- Archivist
- Children's Rights Advocate
- Community Educator & Liaison Officer
- Employment Equity Officer
- Social Program Manager

PROFESSIONAL & GRADUATE PROGRAMS

- Indigenous Education
- Indigenous Social Work
- Sustainability Studies

DID YOU KNOW?

Truth and reconciliation commissions, or similar inquiries have been utilized in many global contexts to bring attention to mass violations of human rights. Canada was the first nation to utilize this process within an Indigenous context.

INTERDISCIPLINARY STUDIES

PROGRAM DESCRIPTION

Prepare to enter an after-degree BEd program to teach in an early/middle years or senior years setting. Learn about all things education – including achievement, knowledge acquisition, social interaction, values, and more.

DEGREE OPTIONS

BA 3 Year Major (General)
BA 3 Year Major (Specialized)
Pre-Ed Pathway

FEATURED COURSES

CHILDREN'S LITERATURE: An introduction to children's literature, its history and development, its rich and diverse forms and techniques. Topics include distinctive genres and their features, pertinent historical and socio-cultural issues, as well as critical approaches to children's literary texts that have captivated children and adult readers alike.

SOCIAL SCIENCE AND CHRISTIANITY: An exploration of the bases, problems, possibilities, and models of integrating selected social sciences and faith, designed to identify common ground between the two worldviews, and to develop a personal philosophy of how they might be mutually enhancing.

AFTER GRADUATION

CAREERS
- Historian
- Researcher
- Teacher
- Writer

PROFESSIONAL & GRADUATE PROGRAMS
- Counselling
- Education
- Science
- Social Justice

DID YOU KNOW?

This program fulfills the requirements for entrance into the Faculty of Education at the University of Manitoba, University of Winnipeg, CMU, and Brandon University.

"Residence is a safe place for laughter and tears to nurture and grow. I myself have taken part in and observed countless discussions on deep topics, all while ensconced in the comfort of the couches in the dorm lounge."

JACOB TAMLIN

PSYCHOLOGY

PROGRAM DESCRIPTION

Discover why people think, feel and behave the way that they do by studying animal and human behaviour and mental processes. Topics range from the basic nervous system to principles of perception and cognition.

DEGREE OPTIONS

BA 4 Year Major
BA 3 Year Major
Minor

FEATURED COURSES

THEORIES OF PERSONALITY: Wonder why our human responses to situations in life are different from person to person? Learn about what really makes up the human personality and why each individual develops and adapts to life in different ways.

FORENSIC PSYCHOLOGY: Examine the interaction between psychology and the legal system. Learn more about the Canadian legal system by paying close attention to both experimental research and clinical aspects in the field.

AFTER GRADUATION

CAREERS
- Advocate
- Children's Minister
- Counsellor
- Teacher

PROFESSIONAL & GRADUATE PROGRAMS
- Counselling
- Counselling Psychology
- Medical School
- Science

DID YOU KNOW?

The term 'psychology' is derived from the Greek word 'psyche' translating as 'breath, spirit, soul' and 'logia' that corresponds to 'study of.'

"Prov changed me. It's been one of the most difficult experiences but also one of the best experiences. I came here to learn, deepen my knowledge and find answers, but this was not easy. I was challenged, I was pushed, but was also shaped by the community here."

RANDY BECHARD

SOCIAL SCIENCE

PROGRAM DESCRIPTION

Learn about human development, social interaction and culture via the lenses of anthropology, psychology, and sociology. Find out how individuals and groups affect and are affected by the societies in which they live.

DEGREE OPTIONS

BA 4 Year Major
BA 4 Year Honours Major
BA 3 Year Major
Minor (in one of the concentrations)

FEATURED COURSES

INTRODUCTION TO PSYCHOLOGY II - HUMAN BEHAVIOUR: A continuation of Intro to Psychology I. Topics include gender and sexuality, motivation, emotion, health, personality, social psychology, abnormal psychology, and therapy.

INTRODUCTION TO SOCIOLOGY I - PEOPLE IN CULTURE: This introductory course focuses on topics such as the nature of sociology in general, the relations of individuals to society, and the systematic differences between people.

AFTER GRADUATION

CAREERS
- Humanitarian Worker
- Non-Government Organization Agent
- Social Justice Worker
- Teacher

PROFESSIONAL & GRADUATE PROGRAMS
- Counselling
- Foreign Service
- Human Development
- Social Justice

DID YOU KNOW?

Social Sciences are different from the arts and humanities as they often require scientific method in their research, such as making surveys.

"Providence has impacted me in different ways. It has really opened my eyes to see what is going on around me and to view society and individuals from a completely new perspective."

DAPHNE KEHLER

SOCIOLOGY

PROGRAM DESCRIPTION

Seeking to understand the social circumstances and reasons for crime, poverty, extremism, and more? Learn how systems of power, policing, politics, religion, law, and media influence society and experiences of social standing.

DEGREE OPTIONS

BA 4 Year Honours Major
BA 3 Year Major
Minor

FEATURED COURSES

COMMON KNOWLEDGE, FAKE NEWS & CONSPIRACY THEORIES: A review of the origins, types, functions, and widespread appeal of the convergence of truth and fiction into fake news, conspiracy theories, and misinformation.

CRIMINAL JUSTICE – POLICING, COURTS & CORRECTIONS: This course examines the functions of law enforcement agencies, the court system, correctional institutions, and how these institutions work to enforce laws, deliver justice, and manage offenders.

AFTER GRADUATION

CAREERS
- Borders Services
- Community Development
- Corrections
- Policing
- Policy Analysis
- Social Services

PROFESSIONAL & GRADUATE PROGRAMS
- Criminology
- Law
- Peace & Conflict Studies
- Public Health
- Public Policy
- Social Justice

DID YOU KNOW?

In addition to the several sociology courses, including theory and methods, Providence students have the opportunity to take criminology and criminal justice courses.

"I promise you that if you let go, your experience at Providence will allow you to look to your past and see a stranger. You will realize just how far you've come, just how far you've grown, and how much God has been working in your life."

HOLLY AMMERMAN

YOUR EDUCATION IS WORTH THE INVESTMENT.

“The profs in the science program are incredibly knowledgeable and passionate about the courses that they teach, and they care about their students and want them to succeed. Another reason I would recommend Prov is the welcoming and friendly community it offers.”
